## Fund Overview

The Fund is a split share corporation which invests in common shares of The Bank of Nova Scotia (“BNS”) and utilizes an active Covered Call writing strategy to enhance the income generated by the portfolio and to reduce volatility. In addition, the Fund may write cash covered put options in respect of securities in which it is permitted to invest.

## Objectives

The fund’s investment objectives are:

- Preferred Shares – (i) to provide holders of Preferred Shares with fixed cumulative preferential monthly cash distributions in the amount of \$0.04375 per Preferred Share (\$0.525 per year) representing a yield on the issue price of the Preferred Shares of 5.25% per annum; and (ii) to return the issue price of \$10.00 per Preferred Share to holders of Preferred Shares at the time of redemption of such shares upon Termination of the Fund; and
- Class A Shares – (i) to provide holders of Class A Shares with monthly cash distributions targeted to be 6.00% per annum on the net asset value (“NAV”) of the Class A Shares; and (ii) to provide holders of Class A Shares with the opportunity for leveraged growth in NAV and distributions per Class A Share.

## Rationale

The preferred shares are appropriate for an investor looking for a more secure investment than common equities with a high level of income. The Class A shares are appropriate for an investor seeking a leveraged play on BNS shares.
