

### Message to Unitholders

We are pleased to present the semi-annual financial results of Premier Canadian Income Fund (formerly Global Plus Income Trust) (the "Fund").

The following is intended to provide you with the financial highlights of the Fund and we hope you will read the more detailed information contained within the report.

The Fund was launched in 1999 with the objectives to:

- provide unitholders with a stable stream of quarterly distributions; and
- (2) return, at a minimum, the original issue price of the units to unitholders upon termination of the Fund.

As of October 2009, the new Fund objectives are to:

- maximize total returns for unitholders including both long-term appreciation in net asset value ("NAV") per unit and distributions; and
- (2) pay unitholders monthly tax efficient distributions in an amount targeted to be 6.5 percent per annum on the NAV of the Fund.

The Fund invests in a portfolio principally consisting of common shares selected from the Energy, Financials and Materials sectors of the S&P/TSX 60 Index. In addition, the Fund may invest up to 20 percent of its net assets in equity securities of other issuers selected from the S&P/TSX Composite Index.

Effective June 30, 2010, the Fund merged with First Premium Income Trust ("FPI"). The merger was approved at a special meeting of unitholders of each Fund on June 4, 2010.

In connection with the merger, holders of units of FPI became holders of units of Premier Canadian Income Fund, the continuing Fund. The merger was effected by transferring the net assets of FPI to the Fund in exchange for units of the Fund and each unitholder of FPI received a number of units of the Fund based on an exchange ratio calculated by reference to the relative net asset values of the units of the Funds at the close of trading on June 29, 2010. In conjunction with the merger, the trading symbol of the Fund changed from "GIP.UN" to "PCU.UN".

During the six-month period ended June 30, 2010, the Fund's total return was negative 11.17 percent. Distributions amounting to \$0.16 per unit were paid during the the six-month period, contributing to the overall decline in the net asset value from \$5.14 per unit as at December 31, 2009 to \$4.41 per unit as at June 30, 2010.

The longer-term financial highlights of the Fund are as follows:

### Management Report on Fund Performance

### **Results of Operations**

For the six-month period ended June 30, 2010, the net asset value of the Fund for pricing purposes based on closing prices was \$4.41 per unit (see Note 3 to the financial statements) compared to \$5.14 per unit at December 31, 2009. The Fund's units, listed on the Toronto Stock Exchange as PCU.UN, closed on June 30, 2010 at \$4.00 per unit, representing a 9.3 percent discount to the net asset value.

Distributions totalling \$0.16 per unit were made to unitholders during the period.

Volatility declined from January to April before rising to elevated levels in May. The Fund was positioned very defensively during the first half of the year before gradually getting more invested by mid year.

Markets had negative returns over the period with the S&P/TSX 60 Index having a total return of negative 3.3 percent. The compound total return for the Fund for the six months ended June 30, 2010, including reinvestment of distributions, was negative 11.2 percent. Among the primary contributors to the relative underperformance of the Fund was an overweight position in Teck Resources Ltd., which was down 14 percent during the period. A minor contributor to the Fund's underperformance were the costs incurred to complete the Fund merger in order to be able to grow the assets and manage the Fund for long-term growth.

For more detailed information on the investment returns, please see the Annual Total Return bar chart on page 8.

### Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five years.

The information for the years ended December 31 is derived from the Fund's audited annual financial statements.

Information for the period ended June 30, 2010 is derived from the Fund's unaudited semi-annual financial statements.

- (1) Net Assets per unit is the difference between the aggregate value of the assets of the Fund and the aggregate value of the liabilities on that date and including the valuation of securities at bid prices divided by the number of units then outstanding. For years prior to 2007, securities were valued at closing prices. The change to the use of bid prices is due to accounting standards set out by the Canadian Institute of Chartered Accountants adopted January 1, 2007 relating to Financial Instruments.
- (2) Total increase (decrease) from operations consists of interest and dividend revenue, realized and unrealized gain (loss), less expenses and is calculated based on the weighted average number of units outstanding during the period. The schedule is not intended to total to the

- (1) Management expense ratio ("MER") is the ratio of all fees and expenses, including goods and services taxes, but excluding transaction fees charged to the Fund to the average net asset value. The MER for 2010 and 2009 includes the restructuring expenses. The MER for 2010 and 2009 excluding the restructuring expenses is 9.03% and 5.20% respectively. The average net asset value for the period ended June 30, 2010 reflected a 23 percent decrease from the average net asset value for the year ended December 31, 2009, resulting in a significant increase in the MER excluding the restructuring expenses.
- (2) Portfolio turnover rate is calculated based on the lesser of purchases or sales of investments, excluding short-term investments, divided by the average value of the portfolio securities.

### Management Report on Fund Performance

For June 30, 2010, December 31, 2009, December 31, 2008 and December 31, 2007, the Net Assets included in the Net Assets per Unit table is from the Fund's financial statements and calculated using bid prices while the Net Asset Value included in the Ratios/Supplemental Data table is for Fund pricing purposes acalculated using closing prices. All other calculations for the purposes of this Management Report on Fund Performance are made using Net Asset Value.

<sup>(3)</sup> Distributions to unitholders are based on the number of units outstanding on the record date for each distribution and were paid in cash.

<sup>(5)</sup> Total expenses for 2009 include restructuring expenses in the amount of \$337,500.

<sup>(3)</sup> Trading expense ratio represents total commissions expressed as a percentage of the daily average net asset value during the period.

<sup>(5)</sup> Net Asset Value per unit is the difference between the aggregate value of the assets of the Fund and the aggregate value of the liabilities of the Fund on that date and including the valuation of securities at closing prices divided by the number of units then outstanding.

<sup>(6)</sup> Effective June 30, 2010, the Fund merged with First Premium Income Trust.

### Management Report on Fund Performance

### **Management Fees**

Mulvihill Capital Management Inc. ("MCM") is entitled to fees under the Investment Management Agreement calculated monthly as 1/12 of 1.00 percent of the net asset value of the Fund at each month end. Prior to the restructuring approved October 26, 2009, the investment management fee was calculated monthly at 1/12 of 1.15 percent of the net asset value of the Fund at each month end.

Services received under the Investment Management Agreement include the making of all investment decisions and the writing of covered call options in accordance with the investment objectives, strategy and criteria of the Fund. MCM also makes all decisions as to the purchase and sale of securities in the Fund's portfolio and the execution of all portfolio and other transactions.

Mulvihill Fund Services Inc. is entitled to fees under the Trust Agreement calculated monthly as 1/12 of 0.10 percent of the net asset value of the Fund at each month end. Services received under the Trust Agreement include providing or arranging for required administrative services to the Fund.

### **Recent Developments**

On June 4th, 2010, unitholders of Premier Canadian Income Fund and First Premium Income Trust approved a proposal to merge the two Funds. Premier Canadian Income Fund is the continuing Fund and effective June 30, 2010 the Fund's ticker symbol changed to PCU.UN. The Fund invests in common shares selected from the Energy, Financials and Materials sectors of the S&P/TSX 60 Index. In addition, the Fund may invest up to 20 percent of its net assets in equity securities of other issuers selected from the S&P/TSX Composite Index. The investment objectives of the Fund are to provide unitholders with monthly distributions in an amount targeted to be 6.5 percent per annum on the net asset value of the Fund.

Financial markets peaked in the second quarter of this year as concerns about the global economy including the sovereign debt crisis in Europe came to the forefront. Volatility, while generally declining into April, rose to elevated levels in the second quarter. We have selectively used higher volatility levels to increase our overwritten positions. Gold continued to be sought as a safe haven by investors driving the commodity price to all time highs in late lune.

The governments of Ontario have taken steps to harmonize their provincial sales taxes with the federal goods and services tax effective July 1, 2010. Implementation of the proposed changes will increase the amount of taxes paid by the Fund on its expenses, including but not limited to management fees, and therefore increase the management expense ratio.

### Management Report on Fund Performance

### **Future Accounting Policy Changes**

The Manager has developed a changeover plan to meet the timetable published by the Canadian Institute of Chartered Accountants for changeover to International Financial Reporting Standards ("IFRS").

The changeover plan was prepared to address the requirements and includes disclosures of the qualitative or quantitative impact, if any, of the changeover to IFRS in the 2010 financial statements and the preparation of the 2011 financial statements in accordance with IFRS with comparatives. However, the Accounting Standards Board is proposing that Canadian investment companies have the option to defer adoption of IFRS until fiscal years beginning on or after January 1, 2012. The Manager is currently assessing the impact of this announcement on the Fund and its plans for adopting IFRS. Accordingly, the Fund will adopt IFRS for either its fiscal period beginning January 1, 2011 or 2012, and will issue its initial financial statements in accordance with IFRS, including comparative information, for either the interim period ending June 30, 2011 or 2012.

The key elements of the changeover plan deal with the requirements for financial reporting, net asset value per unit calculations, systems and processes, and training. The plan also sets out the timeline for implementation of the changes and the required technical training or support required for a smooth transition.

As at June 30, 2010, some anticipated changes to financial reporting include:

- Compliance with the full body of IFRS without industry specific exemptions. Unlike Canadian Generally Accepted Accounting Principles ("Canadian GAAP") where investment fund accounting was based upon guidance in Accounting Guideline 18 – Investment Companies ("AcG 18");
- Implementation of cash flow statements;
- Presentation of comparative information; and,
- Additional financial statement note disclosures on the recognition and classification of financial instruments.

Due to anticipated changes in IFRS prior to the transition to IFRS, the Manager cannot conclusively determine the impact of the Fund's financial results at this time. Based on the Manager's current understanding and analysis of IFRS to the current accounting policies under Canadian GAAP, the Manager does not anticipate the transition to IFRS will have a material impact on the Fund's net assets per unit, systems and processes, and it is expected that it will mainly result in additional note disclosure in the financial statements.

Implementation of the changeover plan is progressing as scheduled. The Manager will continue to monitor ongoing changes to IFRS and adjust their changeover plan accordingly.

### Management Report on Fund Performance

#### **Past Performance**

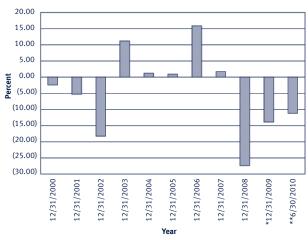

The chart below sets out the Fund's year-by-year past performance. It is important to note that:

- the information shown assumes that all distributions made by the Fund during these periods were reinvested in the Fund,
- (2) the information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns, and
- (3) the past performance of the Fund does not necessarily indicate how it will perform in the future.

#### Year-By-Year Returns

The bar chart below illustrates how the Fund's total return for each of the past ten years and for the six month period ended June 30, 2010 has varied from period to period. The chart also shows, in percentage terms, how much an investment made on January 1 in each year or the date of inception in 1999 would have increased or decreased by the end of that fiscal year, or June 30, 2010 for the six months then ended.

### **Annual Total Return**

- \* Until October 26, 2009, the Fund invested in a diversified portfolio consisting principally of common shares issued by corporations selected from the S&P 100 Index, and the top 100 corporations whose American Deposit Receipts are trading on the New York Stock Exchange or NASDAQ. In addition, in order to provide further global investment opportunities, the Fund may, from time to time, invest up to a maximum of 25 percent of its net asset value in World Equity Benchmark shares that seek to provide investment results that track the performance of a specific country index compiled by Morgan Stanley Capital International Inc. After October 26, 2009, the Fund universe was changed to invest in a portfolio principally consisting of common shares selected from the Energy, Financials and Materials sectors of the S&P/TSX 60 Index. In addition, the Fund may invest up to 20 percent of its net assets in equity securities of issuers selected from the S&P/TSX Composite Index.
- \*\* Effective June 30, 2010, the Fund merged with First Premium Income Trust.

### Management Report on Fund Performance

#### **Related Party Transactions**

Mulvihill Capital Management Inc. ("MCM") manages the Fund's investment portfolio in a manner consistent with the investment objectives, strategy and criteria of the Fund pursuant to an Investment Management Agreement made between MCM and Mulvihill Fund Services Inc. ("Mulvihill") dated August 30, 1999, amended as of October 26, 2009.

Mulvihill is the Manager of the Fund pursuant to a Trust Agreement made between Mulvihill and RBC Dexia Investor Services Trust (the "Trustee") as successor to The Royal Trust Company dated August 30, 1999, amended as of October 26, 2009 and June 14, 2010, and, as such, is responsible for providing or arranging for required administrative services to the Fund. Mulvihill is a wholly-owned subsidiary of MCM. These parties are paid the fees described under the Management Fees section of this report.

Mulvihill and MCM plan to amalgamate. The continuing company will be named Mulvihill Capital Management Inc. Such change is expected to occur on or after September 1, 2010. Fees currently paid to each entity will be paid to Mulvihill Capital Management Inc. from and after the effective date of the amalgamation.

### **Independent Review Committee**

On September 19, 2006, the Canadian Securities Administrators approved the final version of National Instrument 81-107 - Independent Review Committee for Investment Funds ("NI 81-107"). NI 81-107 requires all publicly offered investment funds to establish an independent review committee ("IRC") to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintaining records in respect of these matters and providing assistance to the IRC in carrying out its functions.

In accordance with NI 81-107, the IRC became operational on November 1, 2007. Members of the IRC are Robert W. Korthals, Michael M. Koerner and Robert G. Bertram.

#### Forward-Looking Statements

This report may contain forward-looking statements about the Fund. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Fund currently anticipates that subsequent events and developments may cause the Fund's views to change, the Fund does not undertake to update any forward-looking statements.

### Management's Responsibility for Financial Reporting

The accompanying financial statements of Premier Canadian Income Fund (formerly Global Plus Income Trust) (the "Fund") and all the information in this semi-annual report are the responsibility of the management of Mulvihill Fund Services Inc. (the "Manager") and have been approved by the Board of Advisors (the "Board").

The financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles and include certain amounts that are based on estimates and judgments. Management has ensured that the other financial information presented in this semi-annual report is consistent with the financial statements. The significant accounting policies which management believes are appropriate for the Fund are described in Note 3 of the annual financial statements for the year ended December 31, 2009.

The Manager is also responsible for maintaining a system of internal controls designed to provide reasonable assurance that assets are safeguarded and that accounting systems provide timely, accurate and reliable financial information.

The Board meets periodically with management and external auditors to discuss internal controls, the financial reporting process, various auditing and financial reporting issues, and to review the annual report, the financial statements and the external auditors' report. Deloitte & Touche LLP, the Fund's independent auditors, has full and unrestricted access to the Board.

### **Notes to Financial Statements**

June 30, 2010

#### 1. Basis of Presentation

The interim financial statements for the Fund have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP"). However, not all disclosures required by GAAP for annual financial statements have been presented and, accordingly, these interim financial statements should be read in conjunction with the most recently prepared annual financial statements for the year ended December 31, 2009.

These interim financial statements follow the same accounting policies and method of application as the most recent financial statements for the year ended December 31, 2009.

### 2. Fund Merger

Effective June 30, 2010, Premier Canadian Income Fund (the "Fund") merged with First Premium Income Trust ("FPI"). The merger was approved at a special meeting of unitholders of each Fund on June 4, 2010.

In connection with the merger, holders of units of FPI became holders of units of Premier Canadian Income Fund, the continuing Fund. The merger was effected by transferring the net assets of FPI to the Fund in exchange for units of the Fund and each unitholder of FPI received a number of units of the Fund based on an exchange ratio calculated by reference to the relative net asset values of the units of the Funds at the close of trading on June 29, 2010. FPI unitholders were issued 2,985,545 units of the Fund in exchange for net assets of \$13,185,962. In conjunction with the merger, the trading symbol of the Fund changed from "GIP.UN" to "PCU.UN".

#### 3. Net Asset Value

The Net Asset Value of the Fund is calculated using the fair value of investments using the close or last trade price ("Net Asset Value"). The Net Assets per unit for financial reporting purposes and Net Asset Value per unit for pricing purposes will not be the same due to the use of different valuation techniques. The Net Asset Value per unit is as follows:

	June 30, 2010	Dec. 31, 2009
Net Asset Value (for pricing purposes)	\$ 4.41	\$ 5.14

### Notes to Financial Statements

June 30, 2010

### 4. Financial Instruments and Risk Management

The various types of risks associated with financial instruments and the related risk management practices employed by the Fund are described in Note 11 of the annual financial statements for the year ended December 31, 2009.

The following is a summary of the three-tier hierarchy of inputs used as of June 30, 2010 in valuing the Fund's investments and derivatives carried at fair value:

	uoted prices in active markets for identical assets (Level 1)	obse	cant other ervable (Level 2)	uı	Significant nobservable outs (Level 3)	Total
Canadian Common Share	es \$ 14,887,505	\$	_	\$	- \$	14,887,505
Options	(32,218)		-		- \$	(32,218)
Total Investments	\$ 14,855,287	\$	-	\$	- \$	14,855,287

#### Other Price Risk

Approximately 95 percent (December 31, 2009 - 97 percent) of the Fund's net assets held at June 30, 2010 were publicly traded equities. If equity prices on the exchange increased or decreased by 10 percent as at June 30, 2010, the net assets of the Fund would have increased or decreased by \$1.5M (December 31, 2009 - \$0.3M) respectively or 9.5 percent (December 31, 2009 - 9.7 percent) of the net assets, all other factors remaining constant. In practice, actual trading results may differ and the difference could be material.

#### Credit Risk

The following are the credit ratings for the counterparties to derivative financial instruments that the Fund dealt with during the period, based on Standard & Poor's credit ratings as of June 30, 2010:

Dealer	Long-Term Local Currency Rating	Short-Term Local Currency Rating

### **Notes to Financial Statements**

June 30, 2010

The following are the credit ratings for the counterparties to derivative financial instruments that the Fund dealt with during the prior year, based on Standard & Poor's credit ratings as of December 31, 2009:

Dealer	Long-Term Local Currency Rating	Short-Term Local Currency Rating	
Canadian Dollar			
Bank of Montreal	A+	A-1	
Canadian Imperial Bank

Royal Bank of Canada	AA-	A-1+	
The Toronto-Dominion Bank	AA-	A-1+	

The Fund holds no short-term investments as of June 30, 2010.

The following is the credit rating for short-term investments held by the Fund based on Standard & Poor's credit ratings as of December 31, 2009:

Type of Short-Term		% of Short-Term		
Investment	Rating	Investments		
Government of Canada				
Treasury Bills	AAA	100%		
Total		100%		

The carrying amount of these investments represents their maximum credit risk exposure, as they will be settled in the short-term.

### 5. Future Accounting Policy Changes

The Fund is currently required to adopt International Financial Reporting Standards ("IFRS") for the years beginning on January 1, 2011. The IFRS compliant financial statements will be on a comparative basis. However, the Accounting Standards Board is proposing that Canadian investment companies have the option to defer adoption of IFRS until fiscal years beginning on or after January 1, 2012. The Manager is currently assessing the impact of this announcement on the Fund and its plans for adopting IFRS. Accordingly, the Fund will adopt IFRS for either its fiscal period beginning January 1, 2011 or 2012, and will issue its initial financial statements in accordance with IFRS, including comparative information, for either the interim period ending June 30, 2011 or 2012.
