Semi-Annual Report 2022

## Letter to Shareholders

We are pleased to present the 2022 semi-annual report containing the management report of fund performance and the unaudited financial statements for World Financial Split Corp. (the "Fund").

The first half of 2022 was by most measures a historic six months for financial markets. Few asset classes or strategies provided shelter from the dangerous 2022 cocktail that is tighter monetary policy, run-away inflation and slower economic growth. Equities cratered around the globe, with the S&P 500 Index entering bear market territory, down 20 percent. The S&P/TSX Composite Index fared slightly better, declining 9.8 percent, aided by energy and commodity-based sectors. While bear markets are a normal occurrence over the course of an investment cycle, this one has had a different feel for many investors given the corresponding decline in fixed income markets. Viewed historically as a tool to lower volatility and preserve capital in a well-diversified portfolio, fixed income has accomplished neither of these in 2022 as interest rates moved rapidly higher.

The net asset value of the Fund decreased 16.8 percent from \$13.43 per Unit at December 31, 2021 to \$11.18 per Unit at June 30, 2022. The Fund paid cash distributions of \$0.26 per Preferred share though no distributions were paid on the Class A shares in accordance with the terms of the prospectus as the net asset value per Unit was less than \$15.00. For a detailed review of the operations of the Fund, please see the Results of Operations and the Portfolio Manager Report sections.

We thank all shareholders for their continued support and encourage shareholders to review the detailed information contained within the semi-annual report.

Joh Marin.

John P. Mulvihill Chairman & CEO Mulvihill Capital Management Inc.

## The Fund

The Fund is a split share corporation designed to provide Preferred shareholders with fixed cumulative preferential quarterly distributions and the Class A shareholders with quarterly distributions and the return of the original issue price on the termination date of the Fund. The shares are listed on the Toronto Stock Exchange under the ticker symbols WFS.PR.A for the Preferred shares and WFS for the Class A shares. A Unit of the Fund consists of one Preferred share and one Class A share.

To accomplish its objectives, the Fund invests in a portfolio which includes common equity securities selected from the ten largest financial services or real estate companies by market capitalization in each of Canada, the United States and the Rest of the World (the "Portfolio Universe"). The issuers of securities in the Portfolio Universe, other than Canadian issuers, must have a minimum credit rating of "A" from Standard & Poor's Rating Services or a comparable rating from an equivalent rating agency. In addition, up to 25 percent of the net asset value of the Fund may be invested in common equity securities of financial services or real estate companies not included in the Portfolio Universe as long as such companies have a market capitalization at the time of investment of at least US\$10 billion and for non-Canadian issuers, a minimum credit rating gency. The Fund may also invest in public investment funds including exchange-traded funds or other Mulvihill Funds (provided that no more than 15 percent of the Fund may be invested in securities of the ret asset value of the Fund may be invested in securities.

The Fund employs an active covered call writing strategy to enhance the income generated by the portfolio and to reduce volatility. In addition, the Fund may write cash covered put options in respect of securities in which it is permitted to invest.

The strategy is a quantitative, technical based methodology that identifies appropriate times to write and/or close out option positions compared to writing continuously and rolling options every thirty days. This proprietary process has been developed over many years through various market cycles. The Manager believes the primary benefit to investors is to maximize the total return of the Fund while reducing volatility of the portfolio, thereby increasing the risk-adjusted return.

## **Results of Operations**

#### Distributions

For the six months ended June 30, 2022, cash distributions paid to Preferred shareholders were \$0.26 per share, unchanged from the prior year. Distributions to Class A shareholders remained suspended in accordance with the terms of the prospectus which states: "No distribution will be paid to the Class A shares if: (i) the distributions payable on the Preferred shares are in arrears, or (ii) after the payment of the distribution by the Fund, the net asset value per Unit would be less than \$15.00".

Since the inception of the Fund in February 2004, the Fund has paid total cash distributions of \$9.64 per Preferred share and \$5.54 per Class A share.

#### **Revenue and Expenses**

The Fund's total revenue was \$0.18 per Unit for the six months ended June 30, 2022, unchanged from the same period in the prior year. Total expenses were \$0.23 per Unit, down from \$0.25 per Unit during the same period in the prior year. The Fund had a net realized and unrealized loss of \$1.94 per Unit in the first half of 2022 as compared to a net realized and unrealized gain of \$1.67 per Unit for the same period in the prior year.

#### Net Asset Value

The net asset value decreased 16.8 percent from \$13.43 per Unit at December 31, 2021 to \$11.18 per Unit at June 30, 2022. The net asset value of the Fund, excluding the Redeemable Preferred Share liability, decreased \$2.3 million, from \$12.5 million at December 31, 2021 to \$10.2 million at June 30, 2022, reflecting a decrease in net assets attributable to holders of Class A shares of \$2.1 million and redemptions of both Class A and Preferred shares of \$0.2 million.

## **Recent Developments**

Mulvihill Capital Management Inc., the manager of World Financial Split Share Corp., announced on May 31, 2022 that the Fund would discontinue paying service fees, which were paid to dealers whose beneficial owners hold Class A shares of the Fund. An increasing number of TSX traded funds have discontinued or did not offer service fees. Discontinuing service fees will lower the management expense ratios of the Fund and will also enhance the ability for fee-based accounts to hold Class A shares of the Fund.

## **Related Party Transactions**

Mulvihill Capital Management Inc. ("Mulvihill"), as the Investment Manager of the Fund, manages the investment portfolio in a manner consistent with the investment objectives, strategy and criteria of the Fund pursuant to an Investment Management Agreement made between the Fund and Mulvihill dated January 27, 2004 and amended as of November 6, 2009.

## Management Report of Fund Performance

Mulvihill is the Manager of the Fund pursuant to a Management Agreement made between the Fund and Mulvihill dated January 27, 2004. As such, Mulvihill is responsible for providing or arranging for required administrative services to the Fund.

Mulvihill is paid the fees described under the Management Fees section of this report.

During the period, no recommendations or approvals were required to be sought from the Independent Review Committee ("IRC") concerning related party transactions.

#### Independent Review Committee

National Instrument 81-107 – Independent Review Committee for Investment Funds ("NI 81-107") requires all publicly offered investment funds to establish an IRC to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintaining records in respect of these matters and providing assistance to the IRC in carrying out its functions. The Chief Compliance Officer, designated by the Manager, is in charge of facilitating the fulfillment of these obligations.

The IRC will prepare, for each financial year, a report to securityholders that describes the IRC and its activities during such financial year and includes, if known, a description of each instance when the Manager acted in a conflict of interest matter for which the IRC did not give a positive recommendation or for which a condition, imposed by the IRC, was not met in its recommendation or approval. Members of the IRC are Robert G. Bertram and R. Peter Gillin.

(2) Portfolio turnover rate is calculated based on the lesser of purchases or sales of investments, excluding short-term investments, divided by the average value of the portfolio securities. The Fund employs an option overlay strategy which can result in higher portfolio turnover by virtue of option exercises, when compared to a conventional equity mutual fund.

(3) Trading expense ratio represents total commissions expressed as a percentage of the daily average net asset value during the period.

(4) Annualized.

(5) Net Asset Value per Unit is the difference between the aggregate value of the assets including the valuation of securities at closing prices and the aggregate value of the liabilities, excluding the Redeemable Preferred Share liability, divided by the number of Units then outstanding.

(6) The last date with an executed trade was June 21, 2022.(7) The last date with an executed trade was June 23, 2022.

#### **Management Fees**

Mulvihill, as the Investment Manager of the Fund, is entitled to fees under the Investment Management Agreement calculated monthly as 1/12 of 1.00 percent of the net asset value of the Fund at each month end. Services received under the Investment Management Agreement include the making of all investment decisions and writing of covered call options in accordance with the investment objectives, strategy and criteria of the Fund. Mulvihill also makes all decisions as to the purchase and sale of securities in the Fund's portfolio and as to the execution of all portfolio and other transactions.

Mulvihill, as the Manager of the Fund, is entitled to fees under the Management Agreement calculated monthly as 1/12 of 0.10 percent of the net asset value of the Fund at each month end. Services received under the Management Agreement include providing or arranging for required administrative services to the Fund.

#### Past Performance

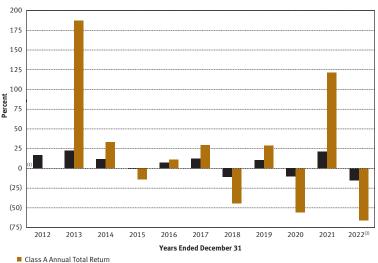

The following chart sets out the Fund's year-by-year past performance. It is important to note that the:

- information shown assumes that all distributions made by the Fund during these periods were reinvested in Units of the Fund;
- (2) information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns; and
- (3) past performance of the Fund does not necessarily indicate how it will perform in the future.

#### Year-By-Year Returns

The following bar chart illustrates how the Fund's total return varied from year to year for each of the past ten years and for the six months ended June 30, 2022. The chart also shows, in percentage terms, how much an investment made on January 1 in each year would have increased or decreased by the end of the fiscal year or June 30, 2022 for the six months ended.

## **Management Report of Fund Performance**

#### Portfolio Manager Report

The first half of 2022 was by most measures a historic six months for financial markets. Few asset classes or strategies provided shelter from the dangerous 2022 cocktail that is tighter monetary policy, run-away inflation and slower economic growth. Equities cratered around the globe, with the S&P 500 Index entering bear market territory, down 20 percent. The S&P/TSX Composite Index fared slightly better, declining 9.8 percent, aided by energy and commodity-based sectors. While bear markets are a normal occurrence over the course of an investment cycle, this one has had a different feel for many investors given the corresponding decline in fixed income markets. Viewed historically as a tool to lower volatility and preserve capital in a well-diversified portfolio, fixed income has accomplished neither of these in 2022 as interest rates moved rapidly higher.

For the six months ended June 30, 2022, the net asset value ("NAV") of the Fund was \$11.18 per Unit compared to \$13.43 per Unit at December 31, 2021. Preferred shareholders received cash distributions of \$0.26 per share during the period, while the distribution for the Class A share remains suspended in accordance with the terms of the prospectus as the net asset value per Unit was less than \$15.00. The Fund's Preferred shares, listed on the Toronto Stock Exchange as WFS.PR.A, closed on June 30, 2022 with a mid-price of \$9.32 per share, while the Class A shares, listed as WFS, closed at a mid-price of \$1.97 per share. When combined, the mid-prices represent a 1.0 percent premium to the NAV per Unit.

The Global Financials equities performance was dire during the period, with a total return of negative 15.8 percent, but still slightly outperformed the broader market that posted a negative total return of 16.6 percent. The total return of the Fund, including reinvestment of distributions, for the six months ended June 30, 2022 was negative 15.0 percent per Unit. The best performing stock within the portfolio was Fairfax Financial Holdings Limited, up 15.8 percent during the period. At the other end of the spectrum, The ING Groep N.V., was the worst performing stock in the portfolio, down 32.5 percent while held in the Fund.

Volatility levels for Global Financial Services companies rose during the first half of the year as the stock prices moved lower. The CBOE Volatility Index ("VIX") started the year at 17.2 and closed at 28.7 on June 30, 2022. The VIX did spike on several occasions, reaching a high of 36.5 on March 7, 2022, and averaged 26.3 in the first half of 2022. For the six-month period ended June 30, 2022, the Fund has on average 4.2 percent of the portfolio subject to covered calls compared to 11.6 percent for the same period last year. The U.S. dollar exposure was actively hedged back into Canadian dollars throughout the period and ended June with approximately 50 percent of the U.S. dollar exposure hedged.

#### Forward-Looking Statements

This report may contain forward-looking statements about the Fund. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Fund currently anticipates that subsequent events and developments may cause the Fund's views to change, the Fund does not undertake to update any forwardlooking statements.
